THE GREAT GLOBAL WARMING SCAM

Man Made Global Warming (MMGW) is now regarded as an established fact. According to would-be US president Al Gore in his popular film documentary and book, it is "an inconvenient truth"---with an emphasis on *truth*. That is, it is unequivocal, undeniable truth without any question of doubt. Moreover, it is claimed by Gore, Australian of the Year Tim Flannery, and a rising sea of climate alarmists that carbon emission by human activity is producing a frightening increase in global temperatures. To add weight to this argument, the United Nations has claimed that "changes in the atmosphere, the oceans and glaciers and ice caps now show unequivocally that the world is warming due to human activities". And a gullible public is swallowing it up, hook, line and sinker. But is it so?

Little Ice Age

Global warming is not new. It has been in progress for thousands of years. In the 12th century the onset of the Little Ice Age drove the Viking agricultural settlements in Greenland and in northern Europe from their previously lush pastures to settle in warmer climes. These significant climatic variations occurred without any man-made carbon emissions---because water vapour is a far more potent greenhouse gas than carbon dioxide. During the Little Ice Age, the glaciers expanded, threatening many mountain villages with destruction. Since 1850, with the end of this cooling cycle---before the impact of the Industrial Revolution was making any significant impact on the amount of carbon dioxide being poured into the atmosphere---the world's ice packs have been receding. Plotting of temperatures since the end of the 19th century shows an increase until 1940, a plateau from 1940 to 1980 and then a constant increase. Nevertheless, the increase in carbon emissions in that period was some 57% of the total increase from 1850 to 2000! Well then: how is it that such a large increase in emissions failed to produce any increase in temperature for 40 years? Another poser for the MMGW proponents is this: why have global temperatures not risen in parallel with greenhouse gases over the last ten years? If the 10-year period since 1998 represents some kind of trend, there has been a flat-line warmth to 2007, when against all expectations the global mean dropped 0.7 of a degree in the biggest shift in mean temperature up or down on record.

Total Solar Radiance

Scientists all agree that the greatest single factor in any changes of climate is the sun. Indeed, the recent warming has coincided with an 8000-year spike in total solar radiance. In other words, more important things are going on than mere fluctuations in a trace gas such as carbon dioxide that happens to consist of only 0.038% of our atmosphere---which is well short of past high points. The problem with the global warming alarmists is that their theory is based on politicised pseudo-science that does not match up with the more exact science of those responsible for accurate measurement of global temperatures. Ocean temperatures measured by 3000 automated buoys have failed to detect any signs of imminent climate change. Moreover, evidence produced by NASA's eight weather satellites which take over 300,000 temperature readings daily across the face of the earth shows a warming trend of just 0.14 degrees Celsius over the last 30 years---well within the range of normal variations.

Dissenting Voices

Despite Al Gore and the UN's claim that the case is closed on global warming there are dissenting voices. The US Senate Committee on Environment and Public Works revealed the staggering extent of the MMGW scam in its article on "Climate Skeptics Reveal Horror Stories of Scientific Repression" which disclosed that over the last decade the case for human activity responsible for global warming has been funded to the tune of \$50 *billion*, while global warming skeptical research received a measly \$19 *million*--260,000% more for the MMGW crusaders! Furthermore, the mainstream media, which featured nearly 13 MMGW advocates for each single skeptic, was shown to be the largest propaganda vehicle for the global warming crusaders. Consequently, in the general absence of common sense in today's society, the whole global warming nonsense has become a religion, and a dangerous one at that. Governments are imposing heavy tax burdens on industries and individuals to "solve" this illusory problem. In fact, these so-called proponents of "save the planet" are nothing more than politically motivated global power seekers using scare tactics to gain control over free nations.

Disasters More Frequent

There is no doubt that natural disasters are occurring more frequently. Every continent is being affected, whether by floods or earthquakes, tsunamis, tornadoes, bushfires, droughts or volcanic eruptions. But it is shallow reasoning to lay the blame for all these catastrophes on an unproved theory that is far from being accepted by all scientists and is merely based on the biased testimony of would-be politicians, the UN, Hollywood stars and the worldwide media. The MMGW theory has been thrust into mainstream acceptance by forceful academics, cultural icons and politicians in the same way that the anti-God theory of evolution was launched in the 19th century. And, too, as evolution blinds people to the very existence of God, so the global warming theory draws them away from the fact that the same God is using environmental and climate change as a dual warning to mankind. Firstly, the major cause of today's environmental disasters has come upon us as a penalty for breaking His laws, both physical and spiritual--the consequence of disobeying Him and rejecting the salvation He offers us through His Son, JESUS CHRIST, who sacrificed Himself on a cruel Cross at Calvary for our sin.

A Harbinger of Jesus' Return

Secondly, these catastrophes are a sign that we are living in the end times foretold in Scripture. Jesus Himself prophesied that "there will be great earthquakes in various places, and famines and pestilences; and there will be fearful sights and great signs from heaven...and on the earth distress of nations, with perplexity, the sea and the waves roaring". The most tragic truth about this man-made global warming craze is that it obstructs people from realising the presence of their Creator. It blinds men, women and children to His part in world affairs and His will for their lives. Those who fall prey to this scam and fail to understand God's role in the present ecological disasters are missing out on the greatest salvation knowledge anyone could ever know: for they are a harbinger of a coming new age on this earth. Take note of these words of the Saviour Himself: "Then they will see the Son of Man coming in a cloud with power and great glory. Now when these things begin to happen, look up and lift up your heads, because your redemption draws near." Jesus is coming soon, coming ready or not!

PRAYER

Loving Father, we give You all glory, honour and thanksgiving for Jesus' finished work on the Cross that has set us free from the bondage of false and foreign gods, sin, pride and death. Merciful Father, we rejoice to worship You in Spirit and in truth; and through the power of Christ's infinite grace we fight His earthly battles for Your glory. As blood-covenant watchmen praying for this Great Southland of the Holy Spirit we thank You for Your Living Word, the **Lord Jesus Christ**, whose Spirit helps us shine for You in this lost, dark world. O Great and Mighty God, bless the message, *The Great Global Warning Scam*, that eyes may be opened to the deception which blinds many gullible people to Your part in today's end-time events. Dear God, the Great I AM, we acknowledge that unless You build the house the workers labour in vain, so we ask You to forgive those who are turning Your temple into 'a den of robbers' instead of a 'House of Prayer'. Lord, give them grace to humble themselves and deeply repent, so that Your Church will always uphold the true Gospel, for Jesus' sake. Amen.

RA: Led by our Lord Jesus Christ through the power of the Holy Spirit to glorify the Fatherhood of God with the Brotherhood of Man; in love and in faithfulness to bring glory and honour to His holy name
